BUSY BIDEFORD

Inspector McLean visited our school and found the children making satisfactory progress. We hear Bideford is one of the best organized schools on the line, and we are all proud of our teacher who by painstaking endeavor has made school life full of interest for her pupils. A club for the young people is in full swing and last week the annual meeting was held to elect officers for the year.

We notice that Lee Hein is taking time by the forelock and has begun spring cleaning. Lee is a busy man these days and is frequently to be seen hard at it with brushes and pumpest.

The restaurant walls are "wearin' o' the green," a decided improvement this, and it the rest of the house is kept up to the mark there should be no reason why the "Alberta Hotel" should not make good and prove an attraction to the town.

Geo. W. McLeod has been appointed as a Commissioner for Oaths.

NOTICE

The Auction Sale which was billed for March 4th, by Mrs. Osavitsky, has been postponed indefinitely.

GLASSES for Temporary Use

Some eyes do not require the constant wearing of glasses. But—there are thousands of cases where glasses, temporarily worn, would relieve discomfort, annoyance and distress.

Splendid Attraction

The Varsity Sextette presented a very clever musical bill at the Empire Theater and entertained one of the biggest houses in the history of that theatre. The quality of the presentation was above reproach and the company deserves the greatest credit for rendering, to the public of the West, a programme seldom surpassed in the cities of importance. After the show the company provided music for a dance, which is said to have been one of the treats of the past year.

The Varsity Sextette will be in Monitor on Monday March 10th, in the Big Hall.

Election Coming?

Rumors are out that a Dominion election is near at hand. These are based on the report that Premier Borden will accept the ambassadorship in the United States, and that the new leader of the Union government will at once go to the people.

Make The Returning Soldier Welcome

THIS is an important hour for Canada. The nation is entering on a new era. It is passing from war to peace. Let us start this new era right. There are thousands of soldiers returning from overseas. The Government is doing all in its power to get these men back to civil life.

It is giving a *War Service Gratuity*—more than any other nation—to keep the soldier going till he gets a job.

It gives him a *pension*—where his usefulness is impaired by his service.

It teaches a man a new trade when his service unfits him for his former trade.

It gives him free medical treatment when illness recurs, and supplies free artificial limbs and surgical appliances.

It is bringing back to Canada at the public expense the *soldiers' dependents* now overseas.

But the Government, however willing, cannot provide the personal touch needed in this work of repatriation. That must be given by the people themselves.

The men who went from these parts to fight in Flanders deserve a real welcome home—the best we can give.

In most towns committees of citizens have already been organized to meet the soldiers and their dependents at the station, to provide hot meals, supply automobiles, afford temporary accommodation when necessary.

In addition, many other towns are organizing social gatherings to give public welcome to returned men after they have been home a few days.

After he has rested, the soldier must be provided with an opportunity for employment. In towns of 10,000 population, Public Employment Offices have been established to help soldiers, as well as war-workers, secure good jobs quickly. Where these exist, citizens should co-operate. Where they do not exist, the citizens themselves should help put the soldier in touch with employment.

* * *

The fighting job is done. It has cost many a heart-burning. But it has been well done. The least we can do is to show our appreciation in no uncertain manner.

Don't let the welcome die away with the cheers.

Note and Comment

In view of the rapid exhaustion during recent years of available Crown Lands in close proximity to the railways, a shortage which has been accentuated by the reservation in the interests of soldier settlement, the desire on the part of prospective settlers to procure land within reasonable distance of a line of transportation has suggested to the Department of the Interior the listing of the names and addresses of the owners of those quarter-sections of unoccupied and non-producing lands which are lying dormant so far as agricultural production is concerned, the presumption being that in a number of cases the owners would be interested from either a financial or patriotic point of view in offers on the part of prospective settlers to purchase or lease their holdings.

The lists are available for distribution covering the various land districts throughout the Provinces of Manitoba and Saskatchewan, those for Alberta to follow at an early date. Applicants should state the district in which they are interested when making application to the Natural Resources Intelligence Branch of the Department of the Interior at Ottawa.

Were the retail mail order houses called upon to support every public enterprise in all the towns in which they sell goods as all the retailers do, and are expected to do, a considerable hole would be made in their profits, and the more the farmer and local community patronize the retail mail order houses just by that much do they retard the building up of their home town, and if the present expansion in this way of trading is kept up, it is not hard to vision that this short-sighted policy will eventually result in the practical effacement of the small town, and to follow up the business of farming will be the next thing to becoming a hermit.

If the farmers of the West could be induced to see that they are deliberately for the sake in many instances of a very small difference in price, and in a great many cases none whatever, destroying the advance in price of their greatest asset, namely, their farm lands, the mail order business would be a natural death. With the increase in the volume of business done by the country merchant which would naturally

result by this action on the part of the farming community, the overhead charges of conducting a store would be more in proportion and with the cost of selling goods materially reduced a closer pricing of merchandise would naturally follow.

This would be a far more desirable place to live in were not for the fact that too many people are doing their best to do their worst.

Looks Like Winter
Had Arrived

Just as Spring gets here the Winter sets in. The last week of February is certainly making up for the summer weather we have been enjoying during the past few months. Starting with the big storm, last Saturday, the mercury crawled down into the bottom of the glass and has been hovering around forty below ever since, only condescending to move up the scale a few degrees each day but always managing to drop back again by evening.

Soldiers Memorial

On June 2nd, 1918, the committee on the above decided to erect a Memorial Stone in the School grounds to perpetuate the memory of the Creek Valley Soldiers who gave their lives for us, and to put a Roll of Honor in the Schoolroom of all Valleyites who joined the colors. Plans, prices and photos will be submitted at a public meeting to be held in the Schoolroom on Saturday, March 8th, at 2 p. m., when the committee hope every Valleyite will attend. C. Connah, Secy.
